A: Yes, it is. There are some thing missing, like the RAM Management - OCI functions, and I wanted to use CodeAccessSecurity as ACCESS_VARIABLE_DEFAULT should be used for code generation-outputs. Hint: the described howto is outdated. Pay attention to the new details about having Oracle Database Advanced Security Guide, and having a connection from. Hi All, it was just a way to go. Thank you. :) \$this->getConfigData(); \$profiler = new Collection(\$this->tmpDir->getPath()); \$profiler->setItems(\$items); \$profiler->dumpData(); \$result = \$profiler->getCount(); \$this->assertEquals(5, \$result['data']['__count']); } } Haas, who was nominated for the award by his father and coach Colin at the championship, said: "I am very grateful to be honoured in this manner. "It really is a great accomplishment to be recognized among my peers, as being the most outstanding coach in the sport of MotoGP. I have had tremendous support and dedication from my family and friends, and I am honored to win this award." Haas also thanked his father for making him a racer, and continued: "I want to especially thank Tony, Mario and Paolo for making this possible, and my mother for being the biggest supporter of my career. "On behalf of all of us, my deepest thanks to all those at La Fittipen and to all my team and riders. I wish to dedicate this award to all those who have suffered because of cancer or other illnesses. I hope that together we can all continue our research and find a cure."Q: Gradle path in Scala? So I am learning how to use Scala. I am using SBT, and have my build.sbt file set up. I am wondering about how this java.home is used. I wanted to see
